

Ascended Life Community Gathering – 10/8/21  
Report on Kenya travel in the Spirit

On Oct 8, 2021 we ‘traveled’ to Kenya to ‘visit’ our friends Noel and Mieke Alexander while they were there on another missionary venture. I was as interested as the rest of you to know if our ‘travel’ was effective?

After Noel & Mieke came home, I sat down with them and we went through the impressions that we gathered as a group. Some things didn’t seem to get ‘traction’... but on the other hand some things were startlingly impacting.

Below are the impressions and related comments, if any, after each impression.

Here is a picture of Noel standing under a tree on their very first visit to Kiungani in 2009 to speak to 13 new converts. The story of that occasion is compelling. The actual tree and others around it, were cut down and used to build the church... so those trees literally did spring up to Heaven... even unto “everlasting”!

Especially read the impressions and comments; #2, #9 and #16.

For more about traveling in the Spirit, check out this ‘playlist’ of 8 ALC videos on the same topic: [https://www.youtube.com/playlist?list=PLOC-c1AZQvEEPvX\\_6N3ndWC22O3grlgxe](https://www.youtube.com/playlist?list=PLOC-c1AZQvEEPvX_6N3ndWC22O3grlgxe)

I find it interesting that the name of their ministry in Kenya is, ‘Love Mercy New Creation’ churches. As you know, ‘new creation’ (kainos) is one of our Scriptural launching pads into Heavenly realities. We’re not mere mortals any longer... we’re new creations!

Keep ascending!!

This is a report:

With permission from Noel and Micky Alexander, and several weeks of prayer prior, the ALC community went in the Spirit to see what our Father would show us. We had secured permission and a very welcome invitation to do so. We ‘hovered’ over the villages N&M were going to be ministering in. The Alexanders had arrived there a few days earlier on a 5-week mission trip. In the following notes, the impressions of what we ‘saw’ and did on our travel in the Spirit, are **numbered**, and the commentary **follows**, when appropriate. **Bold type is of special interest!**

1. We prayed for Kenya. Three cities were named. Kiungani, Kipsaina and Endabess. The focus was on Kiungani.
2. Looking for the gate to the city. **Someone saw the gate as a big tree. This tree is a landmark where the Chief sits in the shade of the tree.** Someone added to this picture. **Where the tree ended it continued to grow to the Heavens (everlasting).**

In 2009 Noel & Mieke and others, met in Kiungani to speak to about 12 new converts... all met under a big tree... Noel brought a bottle of mustard seeds. During their time together that first meeting, he asked everyone take a seed and plant it on that same ¼ of an acre. They bought the land where the tree stood.

When Noel went back there later, he asked where the tree was that they sat under. They said they cut it down and built the church with it. That very church is now Love Mercy’s main thriving church with hundreds of people connected to that church. They made benches out of the tree. That first ¼ acre is now 3 acres with 5 buildings and an orphan dorm. And there are many trees on the property now... from the planting of the seeds.

Sarah, the pastor of the work, frequently tells the congregation, “Do you realize that this church and ministry began under a tree?”

The ministry in Kenya is called Love Mercy New Creation churches. So, when the tree came to its ‘end’, it furthered the Kingdom... it literally supplied building materials to build the church... it continued to ‘grow into the Heavens’. That church has birthed 11 other thriving churches.

3. Another saw that the boundary stones had been moved. Someone saw flames of fire which kept people out. **She felt that the Lord would use this fire to bring people through.**

**Noel says the services during this trip were especially fiery!!**

4. Another saw a hut being consumed by flames.
5. The name Echo was given to a person. He looked up African Swahili name for Echo. **MUONGWI**. He was the Chief of Kiungani.

Their administrator (boots on the ground) guy... his name is Mina **Mongi**.

6. Felt that the Chief was troubled. I hear cries. Sense that everything is going to be okay!
7. We all sung this song over the Chief...
  - o From everlasting to everlasting, I will be your friend!
  - o From everlasting to everlasting, you'll find abundance in me!
8. **Kiungani is to be a place of peace. Someone got the sense that the Chief is inviting people of peace to sit under the shade of his tree.**

**The church is definitely a place of peace that invites people in under the shade of the 'tree'**

9. **A picture of storehouses filling up with grain. There was a release of abundance, fruitfulness and blessings. It was for the village and to overflow to other villages.**

**Benjamin, their main guy built a storage building. Very unusual to have a storage building in that area. No one is prosperous enough to have more than enough. For two years they have harvested 400 200 lb bags of grain.**

10. **An Angel named Thrive is assigned to this village.**

**Their ministry is definitely thriving. Noel was inspired to tell Benjamin that an angel named Thrive is helping them to prosper.**

11. Someone saw (Muongwi) Echo's ears vibrating with frequencies which permeated his heart and body.
12. **Stones that had been stacked for generations began to tumble down. It was the frequencies that caused them to tumble.**

**This ministry has caused the generational stones to tumble down... the frequencies of the Gospel have cause them to tumble**

13. A sense of anxiety and tension (maybe high blood pressure for Chief). The song sung over the Chief brought release. Choirs of Angels are singing and will continue this assignment, causing the abundance to come.
14. Someone saw Highway 35. Hwy to Holiness. Jesus will pick him up and put him on the Highway to Holiness.
15. **Another saw Chief Monqwi up on the highway with a tether reaching to the chief of Endabess, girding him up and pulling him up to the highway as well.**

**Endebess is 15 miles away. They have 20 acres of land that Benjamin farms. Endebess has the best farming land... the land gives the highest yield. More rain... better soil.**

16. **Someone saw a pregnant woman breast-feeding a baby. The Lord will release love to these mothers. Picture of mothers rocking babies. There was a sense of holy, heavy peace.**

**Sarah has a ministry to widows... they were mothers and are still mothers. She has a group around her called Women of Faith. She runs the church and is a very good leader.**

17. **Someone sees huge bellows. The angels are working the bellows.**

**They have fiery services and prayer. "You think we pray... they PRAY!" 3 or 4 days at a time. Angels fanning the flames... and Prayer is the strength of the ministry.**

18. The fact that the Chief offered to help with materials for the widow's house, indicates that there is an anointing for the Chief to have a Father's heart. There is a need for Fathers to bring identity and blessing to the children. Mal 4:5,6

There are some good men, but this society lacks solid men... that's why there are so many widows.

19. Pic of a long dirt road. There was an important man coming down the road who was there to be part of a meeting where they are going to make important decisions. The leader in the hut who was waiting for the man to come, is seeking the Lord and doing the best he can. The Lord will give him a dream that will help him know how to make decisions in the meeting.
20. Pic of Chief sleeping. The song is like a lullaby, bringing comfort to the Chief. Blessing of the child within him, healing his inner-man of childhood trauma.
21. A sense that his uncle tried to make a power play against him and it hurt his heart.
22. A stony heart changed to a heart of flesh. Picture of Jesus with His arm around the Chief. A love song being sung over the Villagers.
23. Someone saw a whirlwind and mango-like fruit being dumped inside the Chief. The Chief was with the children and they were playing in a childlike way. They ended up playing in the water.
24. song. They went to find it in the middle of the night. They returned to their beds in peace.
25. The Lord is using strategic leaders (both men and women of peace) to be influencers to bring a softening of love and affection.
26. I heard "He's the God who turns the stony heart soft so that they can receive from God". There is a softening happening right now.
27. Picture of ??
28. Someone riding a boat from one village to another. The water was rising! Faith was being brought to the villages.
29. Blessing of churches in the village. They have given much, but they are in need as well.
30. I saw someone walking in fire, like a burning bush experience.
31. We all blessed Noel's pointer finger to be filled with power and authority. Someone thought that that power would also be imparted to those there to walk in the same way.
32. A sense that something out of the ordinary will happen on the trip. **Something unusual in nature...** possibly a sign or wonder or resurrection from the dead.

Benjamin is always telling them of people getting healed. **In one of the services N&M prayed for about 25 people. After N&M left, the people had another 4-hour service and they gave testimony that many people got healed from the prayer time.**

I received this email from N&M while they were in Kenya:

Dear Mark,

Thank you for taking time to pray and travel in the Spirit for us during your conference.

Many of the things that your people saw and experienced were true and applicable in the Kiungani compound. A local chief gave the church an acre of land which is most unusual. We have participated in 3 four-hour Holy Spirit meetings at 3 different churches... one being in Kiungani. We have seven or eight meetings to go. The churches are full and overflowing in comparison to last year.

Love Noel and Mieke
